

The Time to Act is NOW

The Employee Retention Credit Program has an expiration date and it will not be extended. The line is only getting longer. Now is the time to establish your place in the process, and claim your allocated refund, by a real company with a proven track record of success.

The Process

The ERC Program is delicate and requires expert knowledge in every aspect. At DeltaERC we partner with Jorns & Associates, the #1 boutique specialty tax firm. They are one of only a few companies listed as a “trusted tax professional” on the IRS website.

If a firm is promising you a quick yes or no qualification, be warned, this is not a quick yes or no process. It requires a deep dive and proper assessment of financials to make sure you meet the IRS requirements and aren't leaving money on the table. The timeline on the right breaks down the process into different phases. This can take anywhere from 10-12 weeks, so don't wait. Start the process now so you will be ready to submit it in time.

Reach out to us today and let's start the conversation. We can help dispel many of the myths or rumors about ERC and share our success stories. You can view testimonials from our clients online at DeltaERC.com. Don't wait any longer to claim your funds or it may be too late.

Delta ERC is a preferred provider of Jorns & Assoc. specialty ERTC services.
